

## Safety Data Sheet

Copyright, 2017, Meguiar's, Inc. All rights reserved. Copying and/or downloading of this information for the purpose of properly utilizing Meguiar's, Inc. products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from Meguiar's, Inc., and (2) neither the copy nor the original is resold or otherwise distributed with the intention of earning a profit thereon.

|                        |            |                         |            |
|------------------------|------------|-------------------------|------------|
| <b>Document Group:</b> | 27-6198-9  | <b>Version Number:</b>  | 2.01       |
| <b>Revision Date:</b>  | 12/07/2017 | <b>Supersedes Date:</b> | 09/09/2016 |

This Safety Data Sheet has been prepared in accordance with the REACH Regulation (1907/2006) and its modifications

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

M2611, Hi-Tech Yellow Paste Wax (22-130B): M2611

#### Product Identification Numbers

14-1000-1206-2      HB-0041-2883-9      HB-0041-2893-8

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### Identified uses

Automotive

#### 1.3. Details of the supplier of the safety data sheet

**ADDRESS:** GR\_GCSL - Local CUNO Address  
**Telephone:** GR\_GCSL - Local Meguiar's Telephone  
**E Mail:** GR\_GCSL - Local Meguiar's Email  
**Website:** GR\_GCSL - Local Meguiar's Website

#### 1.4. Emergency telephone number

GR\_GCSL - Local Meguiar's Emergency Telephone

## SECTION 2: Hazard identification

### 2.1. Classification of the substance or mixture

CLP REGULATION (EC) No 1272/2008

#### CLASSIFICATION:

Flammable Solid, Category 1 - Flam. Sol. 1; H228

Skin Corrosion/Irritation, Category 2 - Skin Irrit. 2; H315

Specific Target Organ Toxicity-Single Exposure, Category 3 - STOT SE 3; H336

Hazardous to the Aquatic Environment (Chronic), Category 3 - Aquatic Chronic 3; H412

For full text of H phrases, see Section 16.

### 2.2. Label elements

CLP REGULATION (EC) No 1272/2008

#### SIGNAL WORD

Danger

#### Symbols:

GHS02 (Flame) | GHS07 (Exclamation mark) |

#### Pictograms

#### Ingredients:

| Ingredient       | C.A.S. No. | EC No.    | % by Wt |
|------------------|------------|-----------|---------|
| Naphthol Spirits | 64742-48-9 | 265-150-3 | 30 - 60 |

#### HAZARD STATEMENTS:

|      |  |
|------|--|
| H228 | Flammable solid.                                   |
| H315 | Causes skin irritation.                            |
| H336 | May cause drowsiness or dizziness.                 |
| H412 | Harmful to aquatic life with long lasting effects. |

#### PRECAUTIONARY STATEMENTS

##### General:

|      |                                |
|------|--------------------------------|
| P102 | Keep out of reach of children. |
|------|--------------------------------|

##### Prevention:

|       |  |
|-------|--|
| P210A | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
| P261A | Avoid breathing vapors.  |

**Response:**

P332 + P313

If skin irritation occurs: Get medical advice/attention.

P370 + P378G

In case of fire: Use a fire fighting agent suitable for flammable liquids such as dry chemical or carbon dioxide to extinguish.

**Disposal:**

P501

Dispose of contents/container in accordance with applicable local/regional/national/international regulations.

10% of the mixture consists of components of unknown acute oral toxicity.

10% of the mixture consists of components of unknown acute dermal toxicity.

54% of the mixture consists of components of unknown acute inhalation toxicity.

Contains 64% of components with unknown hazards to the aquatic environment.

**Notes on labelling:**

H304 is not required on the label due to the product's viscosity

Nota P applied to CAS 64742-48-9.

### 2.3. Other hazards

None known

## SECTION 3: Composition/information on ingredients

| Ingredient                                  | C.A.S. No. | EC No.    | REACH<br>Registration<br>No. | % by Wt   | Classification   |

Please see section 16 for the full text of any H statements referred to in this section

For information on ingredient occupational exposure limits or PBT or vPvB status, see sections 8 and 12 of this SDS

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### Inhalation:

Remove person to fresh air. If you feel unwell, get medical attention.

#### Skin Contact:

Immediately wash with soap and water. Remove contaminated clothing and wash before reuse. If signs/symptoms develop,

get medical attention.

**Eye Contact:**

Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

**If Swallowed:**

Rinse mouth. If you feel unwell, get medical attention.

**4.2. Most important symptoms and effects, both acute and delayed**

See Section 11.1. Information on toxicological effects.

**4.3. Indication of any immediate medical attention and special treatment required**

Not applicable

## SECTION 5: Fire-fighting measures

**5.1. Extinguishing media**

In case of fire: Use a carbon dioxide or dry chemical extinguisher to extinguish.

**5.2. Special hazards arising from the substance or mixture**

None inherent in this product.

**Hazardous Decomposition or By-Products**

**Substance**

Carbon monoxide

Carbon dioxide

**Condition**

During Combustion

During Combustion

**5.3. Advice for fire-fighters**

No special protective actions for fire-fighters are anticipated.

## SECTION 6: Accidental release measures

**6.1. Personal precautions, protective equipment and emergency procedures**

Evacuate area. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Warning! A motor could be an ignition source and could cause flammable gases or vapors in the spill area to burn or explode. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

**6.2. Environmental precautions**

Avoid release to the environment.

**6.3. Methods and material for containment and cleaning up**

Collect as much of the spilled material as possible using non-sparking tools. Place in a closed container approved for transportation by appropriate authorities. Clean up residue. Seal the container. Dispose of collected material as soon as possible.

**6.4. Reference to other sections**

Refer to Section 8 and Section 13 for more information

## SECTION 7: Handling and storage

**7.1. Precautions for safe handling**

Keep out of reach of children. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Avoid breathing dust/fume/gas/mist/vapors/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Avoid contact with oxidizing agents (eg. chlorine, chromic acid etc.) Wear low static or properly grounded shoes. To minimize the risk of ignition, determine applicable electrical classifications for the process using this product and select specific local exhaust ventilation equipment to avoid flammable vapor accumulation. Ground/bond container and receiving equipment if there is potential for static electricity accumulation during transfer.

### 7.2. Conditions for safe storage including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Store away from heat. Store away from acids. Store away from oxidizing agents.

### 7.3. Specific end use(s)

See information in Section 7.1 and 7.2 for handling and storage recommendations. See Section 8 for exposure controls and personal protection recommendations.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### Occupational exposure limits

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| <b>Ingredient</b> | <b>C.A.S. No.</b> | <b>Agency</b>           | <b>Limit type</b>  | <b>Additional Comments</b> |
|-------------------|-------------------|-------------------------|--|----------------------------|
| Naphthol Spirits  | 64742-48-9        | Manufacturer determined | TWA:100 ppm  |                            |
| PARAFFIN WAX      | 8002-74-2         | Greece OELs             | TWA(as fume)(8 hours):2 mg/m <sup>3</sup> ;STEL(as fume)(15 minutes):6 mg/m <sup>3</sup> |                            |

Greece OELs : Greece. OELs (Decree No. 90/1999, as amended)

TWA: Time-Weighted-Average

STEL: Short Term Exposure Limit

CEIL: Ceiling

### 8.2. Exposure controls

#### 8.2.1. Engineering controls

Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapors/spray. If ventilation is not adequate, use respiratory protection equipment. Use explosion-proof ventilation equipment.

### 8.2.2. Personal protective equipment (PPE)

#### Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:

Safety Glasses with side shields

#### Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing.

Gloves made from the following material(s) are recommended:

| Material | Thickness (mm)    | Breakthrough Time |
|----------|-------------------|-------------------|
| Neoprene | No data available | No data available |

#### Respiratory protection

An exposure assessment may be needed to decide if a respirator is required. If a respirator is needed, use respirators as part of a full respiratory protection program. Based on the results of the exposure assessment, select from the following respirator type(s) to reduce inhalation exposure:

Half facepiece or full facepiece air-purifying respirator suitable for organic vapors and particulates

For questions about suitability for a specific application, consult with your respirator manufacturer.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|   |  |
|---|--|
| Physical state                          | Solid  |
| Specific Physical Form:                 | Paste  |
| Appearance/Odor                         | Light cream colored paste with slight hydrocarbon odor |
| Odor threshold                          | <i>No Data Available</i>                               |
| pH                                      | <i>No Data Available</i>                               |
| Boiling point/boiling range             | 198.9 °C   |
| Melting point                           | <i>No Data Available</i>                               |
| Flammability (solid, gas)               | Flammable Solid: Category 1.                           |
| Explosive properties:                   | Not Classified   |
| Oxidising properties:                   | Not Classified   |
| Flash Point                             | 65.6 °C  |
| Autoignition temperature                | <i>No Data Available</i>                               |
| Flammable Limits(LEL)                   | <i>No Data Available</i>                               |
| Flammable Limits(UEL)                   | <i>No Data Available</i>                               |
| Vapor Pressure                          | <i>No Data Available</i>                               |
| Relative Density                        | 0.86 [Ref Std:WATER=1]                                 |
| Water solubility                        | Nil  |
| Solubility- non-water                   | <i>No Data Available</i>                               |
| Partition coefficient: n-octanol/ water | <i>No Data Available</i>                               |
| Evaporation rate                        | <i>No Data Available</i>                               |
| Vapor Density                           | <i>No Data Available</i>                               |
| Decomposition temperature               | <i>No Data Available</i>                               |
| Viscosity                               | > 100 mPa-s  |
| Density                                 | 0.86 g/cm3   |

### 9.2. Other information

|                               |                          |
|-------------------------------|--------------------------|
| EU Volatile Organic Compounds | <i>No Data Available</i> |
| Molecular weight              | <i>No Data Available</i> |

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section.

### 10.2. Chemical stability

Stable.

### 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

#### 10.4. Conditions to avoid

Heat  
Sparks and/or flames

#### 10.5. Incompatible materials

Strong oxidizing agents  
Strong acids

#### 10.6. Hazardous decomposition products

| <u>Substance</u> | <u>Condition</u> |
|------------------|------------------|
| None known.      |                  |

Refer to section 5.2 for hazardous decomposition products during combustion.

## SECTION 11: Toxicological information

The information below may not agree with the EU material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 11 are based on UN GHS calculation rules and classifications derived from 3M assessments.

#### 11.1. Information on Toxicological effects

##### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

##### Inhalation:

May be harmful if inhaled.

Respiratory Tract Irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain.

May cause additional health effects (see below).

##### Skin Contact:

Skin Irritation: Signs/symptoms may include localized redness, swelling, itching, dryness, cracking, blistering, and pain.

##### Eye Contact:

Vapors released during curing may cause eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.

##### Ingestion:

Gastrointestinal Irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

May cause additional health effects (see below).

**Additional Health Effects:****Single exposure may cause target organ effects:**

Central Nervous System (CNS) Depression: Signs/symptoms may include headache, dizziness, drowsiness, incoordination, nausea, slowed reaction time, slurred speech, giddiness, and unconsciousness.

**Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

**Acute Toxicity**

| Name                                     | Route                          | Species | Value  |
|--|--------------------------------|---------|--|
| Overall product                          | Dermal                         |         | No data available; calculated ATE >5,000 mg/kg |
| Overall product                          | Inhalation-Vapor(4 hr)         |         | No data available; calculated ATE20 - 50 mg/l  |
| Overall product                          | Ingestion                      |         | No data available; calculated ATE >5,000 mg/kg |
| Naphthol Spirits                         | Inhalation-Vapor               |         | LC50 estimated to be 20 - 50 mg/l              |
| Naphthol Spirits                         | Dermal                         | Rabbit  | LD50 > 3,000 mg/kg                             |
| Naphthol Spirits                         | Ingestion                      | Rat     | LD50 > 5,000 mg/kg                             |
| HYDROTREATED LIGHT PETROLEUM DISTILLATES | Dermal                         | Rabbit  | LD50 > 3,160 mg/kg                             |
| HYDROTREATED LIGHT PETROLEUM DISTILLATES | Inhalation-Dust/Mist (4 hours) | Rat     | LC50 > 3 mg/l                                  |
| HYDROTREATED LIGHT PETROLEUM DISTILLATES | Ingestion                      | Rat     | LD50 > 5,000 mg/kg                             |
| FATTY ACIDS, MONTAN-WAX, ETHYLENE ESTERS | Dermal                         |         | LD50 estimated to be > 5,000 mg/kg             |
| FATTY ACIDS, MONTAN-WAX, ETHYLENE ESTERS | Ingestion                      | Rat     | LD50 > 2,000 mg/kg                             |

**Aspiration Hazard**

| Name                                     | Value             |
|--|-------------------|
| Naphthol Spirits                         | Aspiration hazard |
| HYDROTREATED LIGHT PETROLEUM DISTILLATES | Aspiration hazard |

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

**SECTION 12: Ecological information**

The information below may not agree with the EU material classification in Section 2 and/or the ingredient classifications in Section 3 if specific ingredient classifications are mandated by a competent authority. In addition, statements and data presented in Section 12 are based on UN GHS calculation rules and classifications derived from 3M assessments.

**12.1. Toxicity**

No product test data available

| Material | Cas # | Organism | Type | Exposure | Test Endpoint | Test Result |
|----------|-------|----------|------|----------|---------------|-------------|
|----------|-------|----------|------|----------|---------------|-------------|

|  |            |               |   |          |                          |              |
|--|------------|---------------|---|----------|--------------------------|--------------|

**12.4. Mobility in soil**

Please contact manufacturer for more details

**12.5. Results of the PBT and vPvB assessment**

No information available at this time, contact manufacturer for more details

#### 12.6. Other adverse effects

No information available

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Incinerate in a permitted waste incineration facility. As a disposal alternative, utilize an acceptable permitted waste disposal facility. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

The coding of a waste stream is based on the application of the product by the consumer. Since this is out of the control of the manufacturer, no waste code(s) for products after use will be provided. Please refer to the European Waste Code (EWC - 2000/532/CE and amendments) to assign the correct waste code to your waste stream. Ensure national and/or regional regulations are complied with and always use a licensed waste contractor

#### EU waste code (product as sold)

200113\* Solvents

## SECTION 14: Transportation information

IMDG: UN1325; Flammable Solid, Organic, N.O.S. (Hydrotreated Heavy Naphtha (Petroleum) and Hydrotreated Light Petroleum Distillates); 4.1; II; EMS: F-A, S-G. (ENG)

ADR: UN1325; Flammable Solid, Organic, N.O.S. (Hydrotreated Heavy Naphtha (Petroleum) and Hydrotreated Light Petroleum Distillates); 4.1; II; (E); F1.

IATA: UN1325; Flammable Solid, Organic, N.O.S. (Hydrotreated Heavy Naphtha (Petroleum) and Hydrotreated Light Petroleum Distillates); 4.1; II. (ENG)

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Global inventory status

Contact manufacturer for more information The components of this product are in compliance with the chemical notification requirements of TSCA.

## 15.2. Chemical Safety Assessment

Not applicable

## SECTION 16: Other information

### List of relevant H statements

|        |   |
|--------|---|
| EUH066 | Repeated exposure may cause skin dryness or cracking. |
| H226   | Flammable liquid and vapor.                           |
| H228   | Flammable solid.                                      |
| H304   | May be fatal if swallowed and enters airways.         |
| H315   | Causes skin irritation.                               |
| H336   | May cause drowsiness or dizziness.                    |
| H411   | Toxic to aquatic life with long lasting effects.      |
| H412   | Harmful to aquatic life with long lasting effects.    |

### Revision information:

Section 02: CLP Ingredient table information was modified.  
Section 03: Composition/ Information of ingredients table information was added.  
Section 03: Composition/ Information of ingredients table information was deleted.  
Section 08: Occupational exposure limit table information was modified.  
Section 09: Property description for optional properties information was modified.  
Section 09: Relative density information information was modified.  
Section 11: Acute Toxicity table information was modified.  
Section 11: Reproductive Toxicity Table information was modified.  
Section 11: Skin Sensitization Table information was modified.  
Section 11: Target Organs - Repeated Table information was modified.  
Section 11: Target Organs - Single Table information was modified.  
Section 12: Component ecotoxicity information information was modified.  
Section 12: Persistence and Degradability information information was modified.  
Section 12:Biocumulative potential information information was modified.  
Section 14: Transportation classification information was modified.

DISCLAIMER: The information on this Safety Data Sheet is based on our experience and is correct to the best of our knowledge at the date of publication, but we do not accept any liability for any loss, damage or injury resulting from its use

(except as required by law). The information may not be valid for any use not referred to in this Data Sheet or use of the product in combination with other materials. For these reasons, it is important that customers carry out their own test to satisfy themselves as to the suitability of the product for their own intended applications.
